CMPE 101: Object Oriented Programming
Worksheet 11C

Istanbul Bilgi University

Spring 2021

Part I

Create a custom exception class.

Part II

Write at least 5 different operation that process the information *given by user* and *throws* the exception written in Part I. The operations are totally up to you.

Part III

Modify the operations written in Part II, in order to write the thrown exception to a file.

Note: Do not compress your files, submit only java files.
Note: Do not forget to justify your answers with comments.
